It is extremely difficult, if possible, to look ahead for eighteen months and predict just what may come up in that time to create an extra expense. However, the estimates are carefully made and are expected to meet all regular needs.

A later detailed estimate of our needs will be presented at the school meeting.

## SUPERINTENDENT'S REPORT

*To the Members of the Northumberland School Board:*

Gentlemen:

I have the pleasure to submit for your consideration my third annual report of the Northumberland schools.

The school census taken last September showed 290 boys and 266 girls or a total of 556 people in town between the ages of five and sixteen years. This is five less than a year ago. There were found to be thirty-two children not in school, as follows, twenty-two between the ages of five and eight and ten between fourteen and sixteen. Those between fourteen and sixteen have completed the work of the elementary school or have been excused by the Commissioner of Education. On September 30th, we had a total registration of 602 which is thirty-four less than a year ago. There were registered sixty-two who were over sixteen.

The teachers for 1936-'37 are as follows: High School—

Ronald A. Perham, headmaster and science; Roy G. Cascaden, submaster and social sciences; Anna J. Redden, languages; D. Chandler Matthews, English Grades X—XII; Dorothy E. Morrison, commerce; Ellen W. Marshall, history; Violet B. Bell, home economics; H. Stuart Kingsbury, manual arts and coach; Thelma K. Bond, junior history and geography; Priscilla Brown, junior English; Hollis F. Sawyer, mathematics and science, and G. E. Wentworth, orchestral music.

Elementary Schools—Agnes Merriam, principal and grade I; M. Olive Woodward, grade I; Nathalie Smith, grade II; Marion Ford, grade II; Lillian E. Calzolari, grades III-IV; Genevieve Devlin, grade III; Ella O. Keene, grade IV; Mabel E. Palmer, grade V; Leta M. Thurston, grades V-VI; Catherine Bateman, grade VI; and Laura Perry at No. 6. There were but two changes in the teaching force this year, viz., Miss Marshall taking Mrs. Hardy Finson's place and Miss Brown Miss Buzzell's position.

This year, we have ten transportation routes with drivers as follows: John Currier, three pupils; Franklin Brigham, seven pupils; Fred Hunter, four; Francis Ledger, seven; Joseph McLaughlin, thirty-one; Ben Merrill, fourteen; Clayton Potter, twenty-three; Howard Potter, twenty-eight; John Silver, three; and Robert Tippitt, five. Total number of children transported is 125.

We have three non resident pupils in the elementary schools and twenty-seven in the high school.

There is a bill in the legislature this year to change the school fiscal year from June thirtieth to January thirty-first. The scholastic year to remain the same as at present, June thirtieth. If the law passes and becomes effective July first, 1937, we shall be somewhat mixed up with our finances for the coming year. When the adjustment is made, it will be an improvement because at the present time the town fiscal year and the school fiscal year are five months apart. This law changes section 15 of chapter 119.

From the registers last June, we gleaned a few facts which may be of interest, namely, there were thirty-seven pupils

in the senior class; there were registered in all of the schools 640 different pupils during the year; the percent of attendance was 95.66; fifty-seven pupils were not absent or tardy for the year; 767 tardy marks were recorded; 368 visits were credited to citizens; two to members of the school board and 951 to the superintendent of schools.

This year we have been obliged to purchase a few extra typewriters to meet the demand of the classes. If the present bookkeeping class, fifty-two, continue in the commerce department, we shall have a serious problem to solve. The teacher has but one period when she is not now teaching. The class will have to be made into three divisions for typing. Where will we get the time?

We got a small amount of Federal Aid in our Home Economics department for some of the work that was approved under the George-Ellzey Act. We are continuing the same work this year.

New drinking fountains have been installed in the elementary school building and new fountain heads have been purchased for the fountains in the high school.

The medical examination was made by Dr. Schillhammer with the assistance of Miss Wheeler. Miss Wheeler has done the follow up work in the schools. She has also tested the hearing of all children with the audiometer apparatus loaned by the State Board of Education.

If possible, from a financial point, it seems now that we ought to have another teacher for the elementary schools so that the principal may have time to look after the work more carefully so that it may be brought to a higher standard. Much individual and specialized assistance is needed. We are getting too many repeaters in the grades. It is true that many enter too young and later find that they are not mature enough to do the work in a manner that is entirely satisfactory. The result is a drag all along the line to the high school.

Varied extra-curricular activities hold a very large place in the work of the high school. The activities are so varied that all of the children may find something in which they

may become interested. Athletics hold a very prominent place and some excellent players have been produced among the pupils.

I extend to you my appreciation of your assistance and cooperation in carrying on the work of the schools.

Respectfully submitted,

Alonzo J. Knowlton.
